The FBI is a powerful and intimidating investigative unit, however – much like the IRS warnings from last month – they DO NOT block phones or computers and attempt to get money from you for web pages you may or may not have visited. If you have any questions, you can show me the message but generally it means a rather... hmmm... X-rated site was visited and that triggered the scam message.

FINAL SCORE: Michigan 32 Michigan State 23 (in case you missed it)

Okay yes, I admit this sign is often a huge pain to obey and (in some cases) it appears there doesn't really seem to be a reason for it to be posted at all! However, it is STILL a violation to go around one if you're going THROUGH a construction zone to get to a place on the other side of it!
